

XYZ Health Solutions Patient Management System Test Plan - Sample

Overview

This is a sample test plan for the XYZ Health Solutions Patient Management System, focusing on the appointment booking functionality. It includes test cases designed to validate whether the system meets the functional requirement:

REQ-APPT-01

The system must allow valid patients to book appointments using their PatientID and credentials. Invalid booking attempts (e.g., unauthorized users, unavailable times) must be rejected with a clear error message, ensuring HIPAA-compliant data handling.

Test Cases

Test Case ID	Requirement ID	Test Title	Objective	Preconditions	Test Steps	Expected Result	Priority	Owner
TC-001	REQ-APPT-01	Valid appointment booking	Verify booking succeeds for valid patient credentials	Patient has valid account	1. Enter valid PatientID 2. Enter valid credentials 3. Select available time 4. Click book	Booking confirmation displayed	High	QA Team
TC-002	REQ-APPT-01	Invalid credentials	Verify booking fails with incorrect credentials	Patient has valid account	1. Enter valid PatientID 2. Enter wrong credentials 3. Click book	Error: "Invalid credentials"	High	QA Team
TC-003	REQ-APPT-01	Unavailable time slot	Verify booking fails for unavailable time slot	None	1. Enter valid PatientID 2. Select unavailable time 3. Click book	Error: "Selected time slot unavailable"	Medium	QA Team

TC-004	REQ-APPT-01	Blank fields	Verify booking fails when fields are blank	None	1. Leave PatientID and/or credentials blank 2. Click book	Error: "PatientID and credentials cannot be blank"	High	QA Team
TC-005	REQ-APPT-01	Unauthorized access	Verify booking fails for unauthorized PatientID	None	1. Enter invalid PatientID 2. Enter any credentials 3. Click book	Error: "Unauthorized access. Please register."	High	QA Team

Traceability Matrix

Requirement ID	Requirement Description	Test Case ID	Test Case Description	Status
REQ-APPT-01	Appointment booking and error handling logic	TC-001	Valid appointment booking	Not Started
REQ-APPT-01	Appointment booking and error handling logic	TC-002	Invalid credentials	Not Started
REQ-APPT-01	Appointment booking and error handling logic	TC-003	Unavailable time slot	Not Started
REQ-APPT-01	Appointment booking and error handling logic	TC-004	Blank fields	Not Started
REQ-APPT-01	Appointment booking and error handling logic	TC-005	Unauthorized access	Not Started
